

RISELABS
YOUR TECH SAFETY NET

**Bridging the gap
between great
business ideas and
transformative
tech solutions**

DEFENDING YOUR VISION

**We're passionate
about protecting
businesses from tech
project failures**

“The percentage of projects that fail is fairly high—a massive 70% fail to deliver what was promised to customers.” We’ve seen companies spend thousands on incorrect solutions and waste time on failed promises.

THE TECH TALENT CHALLENGE

70% of IT projects fail due to misalignment of skills and goals

Businesses waste an average of £97 million for every £1 billion invested in projects worldwide

Finding the right tech talent is the #1 challenge for 86% of businesses

“Nearly every 10 seconds, £1 million is wasted by companies worldwide due to the ineffective implementation of business strategy. This results in approximately £2 trillion a year.”

THE INNOVATION GAP

84% of executives say innovation is key to growth, yet only 6% are satisfied with their innovation performance

Lack of technical expertise is cited as the top barrier to digital transformation

“Compared with their lesser peers, the companies generate at least twice the revenue growth when diversifying into adjacent segments and achieve advantages in customer relations, the value chain or business model innovation”

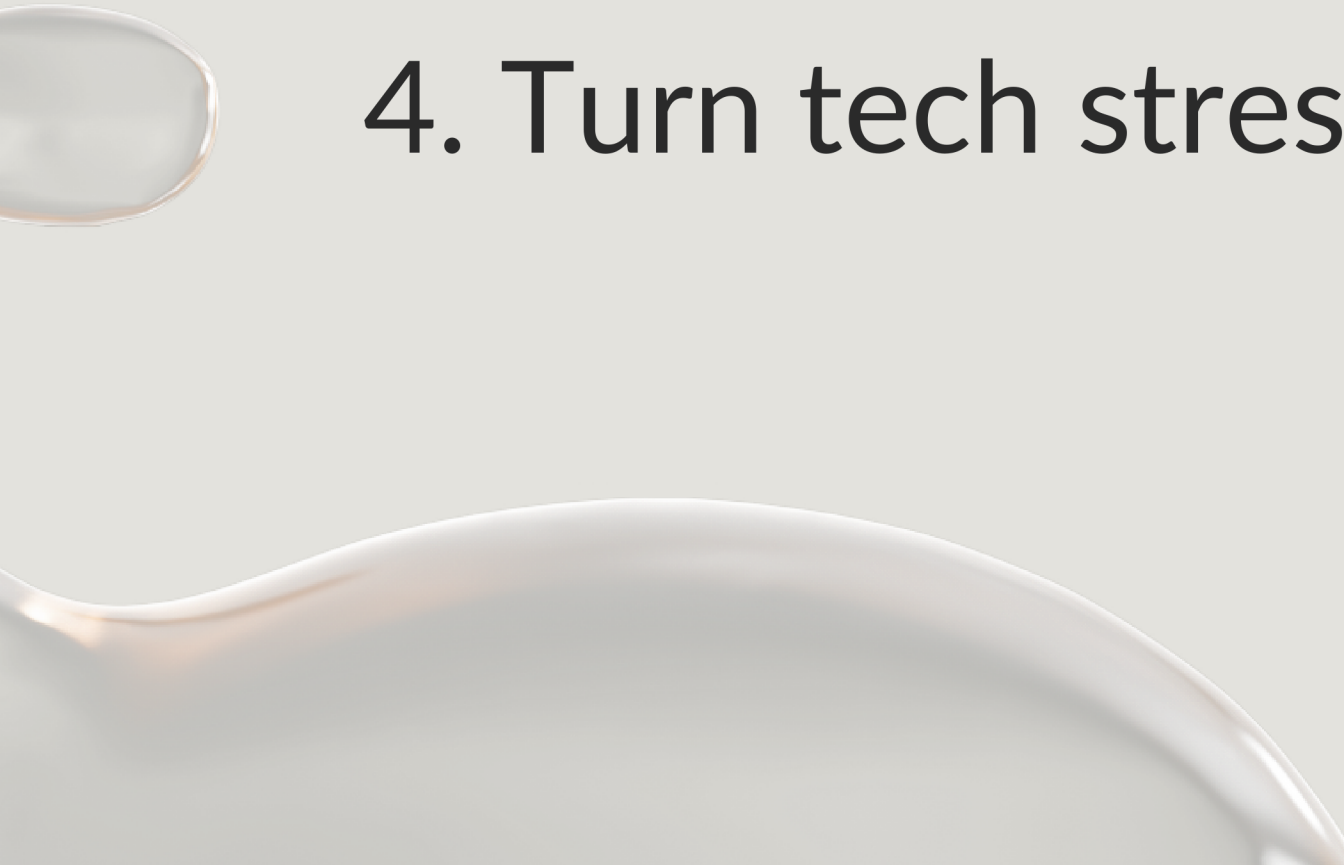

BEYOND NUMBERS: THE HUMAN COST

Sleepless nights for founders, the stress of explaining failures to stakeholders, and lost opportunities and market position

Founders, business owners and managers bear the brunt of lousy tech investments, burning capital and confusing customers. **We're on a mission** to separate you from projects so you can do what you do best: running your business.

WHY WE DO WHAT WE DO

1. **Prevent** the heartache of failed tech projects
 2. **Empower** businesses to innovate without fear
 3. **Shield** clients from predatory dev agencies
 4. Turn tech stress into tech **success**
- 

YOUR ADVOCATE IN THE TECH WORLD

We speak both 'business' and 'tech' fluently

Your goals are our goals

We vet partners as if our own
business depended on it

Continuous oversight to keep
projects on track

We're on your side. Our role is to stand with your business. We take time to understand your requirements and find the right people for the job. We protect your interests, your budget, and your reputation.

WHY GOOD BUSINESSES STRUGGLE WITH TECH

Finding the **right talent** is like finding a **needle in a haystack**

The cost of a bad hire or wrong partner can be devastating

Technology moves fast, but your business can't afford to slow down

Your role is crucial to your business, and taking on “tech manager” or “CTO” responsibilities adds unnecessary pressure on you and your team. **We're here to take that weight off your shoulders** and be your technical go-to.

INNOVATE OR STAGNATE: THE MODERN BUSINESS DILEMMA

Businesses know they need to **innovate**, but the path is unclear

Fear of making the wrong tech choices paralyses decision-making

Without the right guidance, the gap between idea and execution widens daily

Innovation is key to growth. We're here to guide you from idea to concept, technical specification, finding the right designers and developers, project management, and deployment of your product or service.

HOW IT WORKS: YOUR SHIELD IN THE TECH WORLD

Expert matchmaking.
Vigilant oversight.
Stress-free innovation.

“Leave it with us” is the aim of the game. You are the visionary, and it’s our job to translate that into action.

We find the perfect tech partners so you don't have to

We watch every step of the project like it's our own

You focus on your vision while we handle the tech

OUR SERVICES: PROTECTION AT EVERY LEVEL

Level 1

Talent Shield

Expert matchmaking to find your ideal tech partners

Thorough vetting of potential agencies or freelancers

Presentation of 3-5 pre-screened candidates

Assistance with initial introductions and negotiations

Commission-based fee structure (% of project value)

Level 2

THE PROCESS: YOUR JOURNEY TO TECH PEACE OF MIND

1. Heart-to-Heart Consultation

In-depth discussion of your business goals and challenges

Analysis of your current tech landscape and pain points

Identification of key stakeholders and decision-makers

Duration: Typically 1-2 hours

2. Roadmap Creation

Development of a comprehensive project scope

Creation of a detailed technical requirements document

Risk assessment and mitigation strategies

Timeline and budget estimation

Duration: 3-5 business days

3. Talent Curation

Activation of our extensive network of vetted professionals

Rigorous matching process based on project needs and company culture

In-depth interviews and technical assessments of potential candidates

Presentation of 3-5 top matches with detailed profiles

Duration: 5-10 business days

THE PROCESS: CONSTANT VIGILANCE FOR YOUR SUCCESS

4. Eagle-Eye Oversight

Kick-off meeting to align all parties on project goals and expectations

Implementation of project management tools and communication channels

Regular code reviews and quality assurance checks

Proactive identification and resolution of potential issues

Ongoing: Throughout the project lifecycle

5. Regular Check-ins

Weekly progress reports tailored to both technical and non-technical stakeholders

Bi-weekly video conferences to discuss progress, challenges, and adjustments

Monthly in-depth reviews of project health, budget, and timeline

Ongoing: Frequency adjustable based on project needs

6. Unwavering Support

On-demand access to our team for questions or concerns

Rapid response to emergent issues (within 24 hours)

Continuous evaluation of project alignment with business goals

Post-milestone retrospectives to capture lessons learned and optimise the process

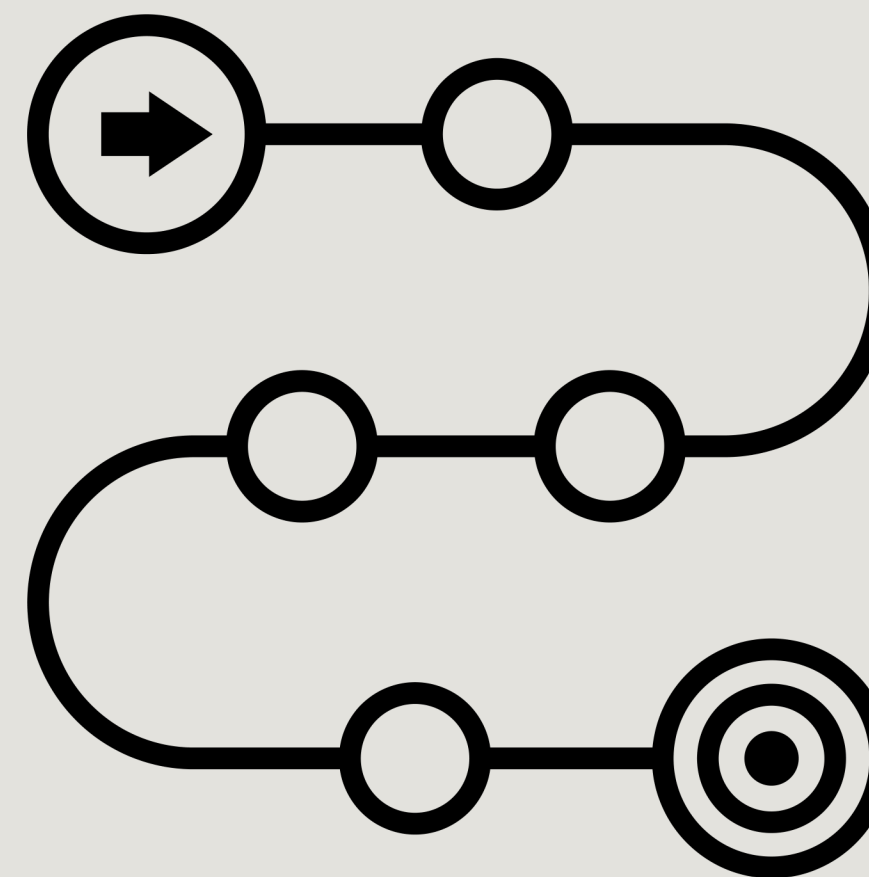

Ongoing: Throughout the project and beyond

BEEN THERE, DONE THAT

10+ years in the trenches of tech development

We've felt the pain of misaligned projects firsthand

Now, we use that experience to protect and empower you

RIGOROUS VETTING, NO EXCEPTIONS

**We interrogate
potential partners so
you don't have to**

Our standards are sky-high because
your success depends on it

We're not satisfied until we find the
perfect match for your needs

SLEEP WELL, INNOVATE BETTER

Reduce project stress by up to 70%

Save up to 40% on project costs by
getting it right the first time

Access to elite tech talent that aligns
with your vision

Let us handle the resources,
technology, approach,
documents, and more. You
bring the vision.

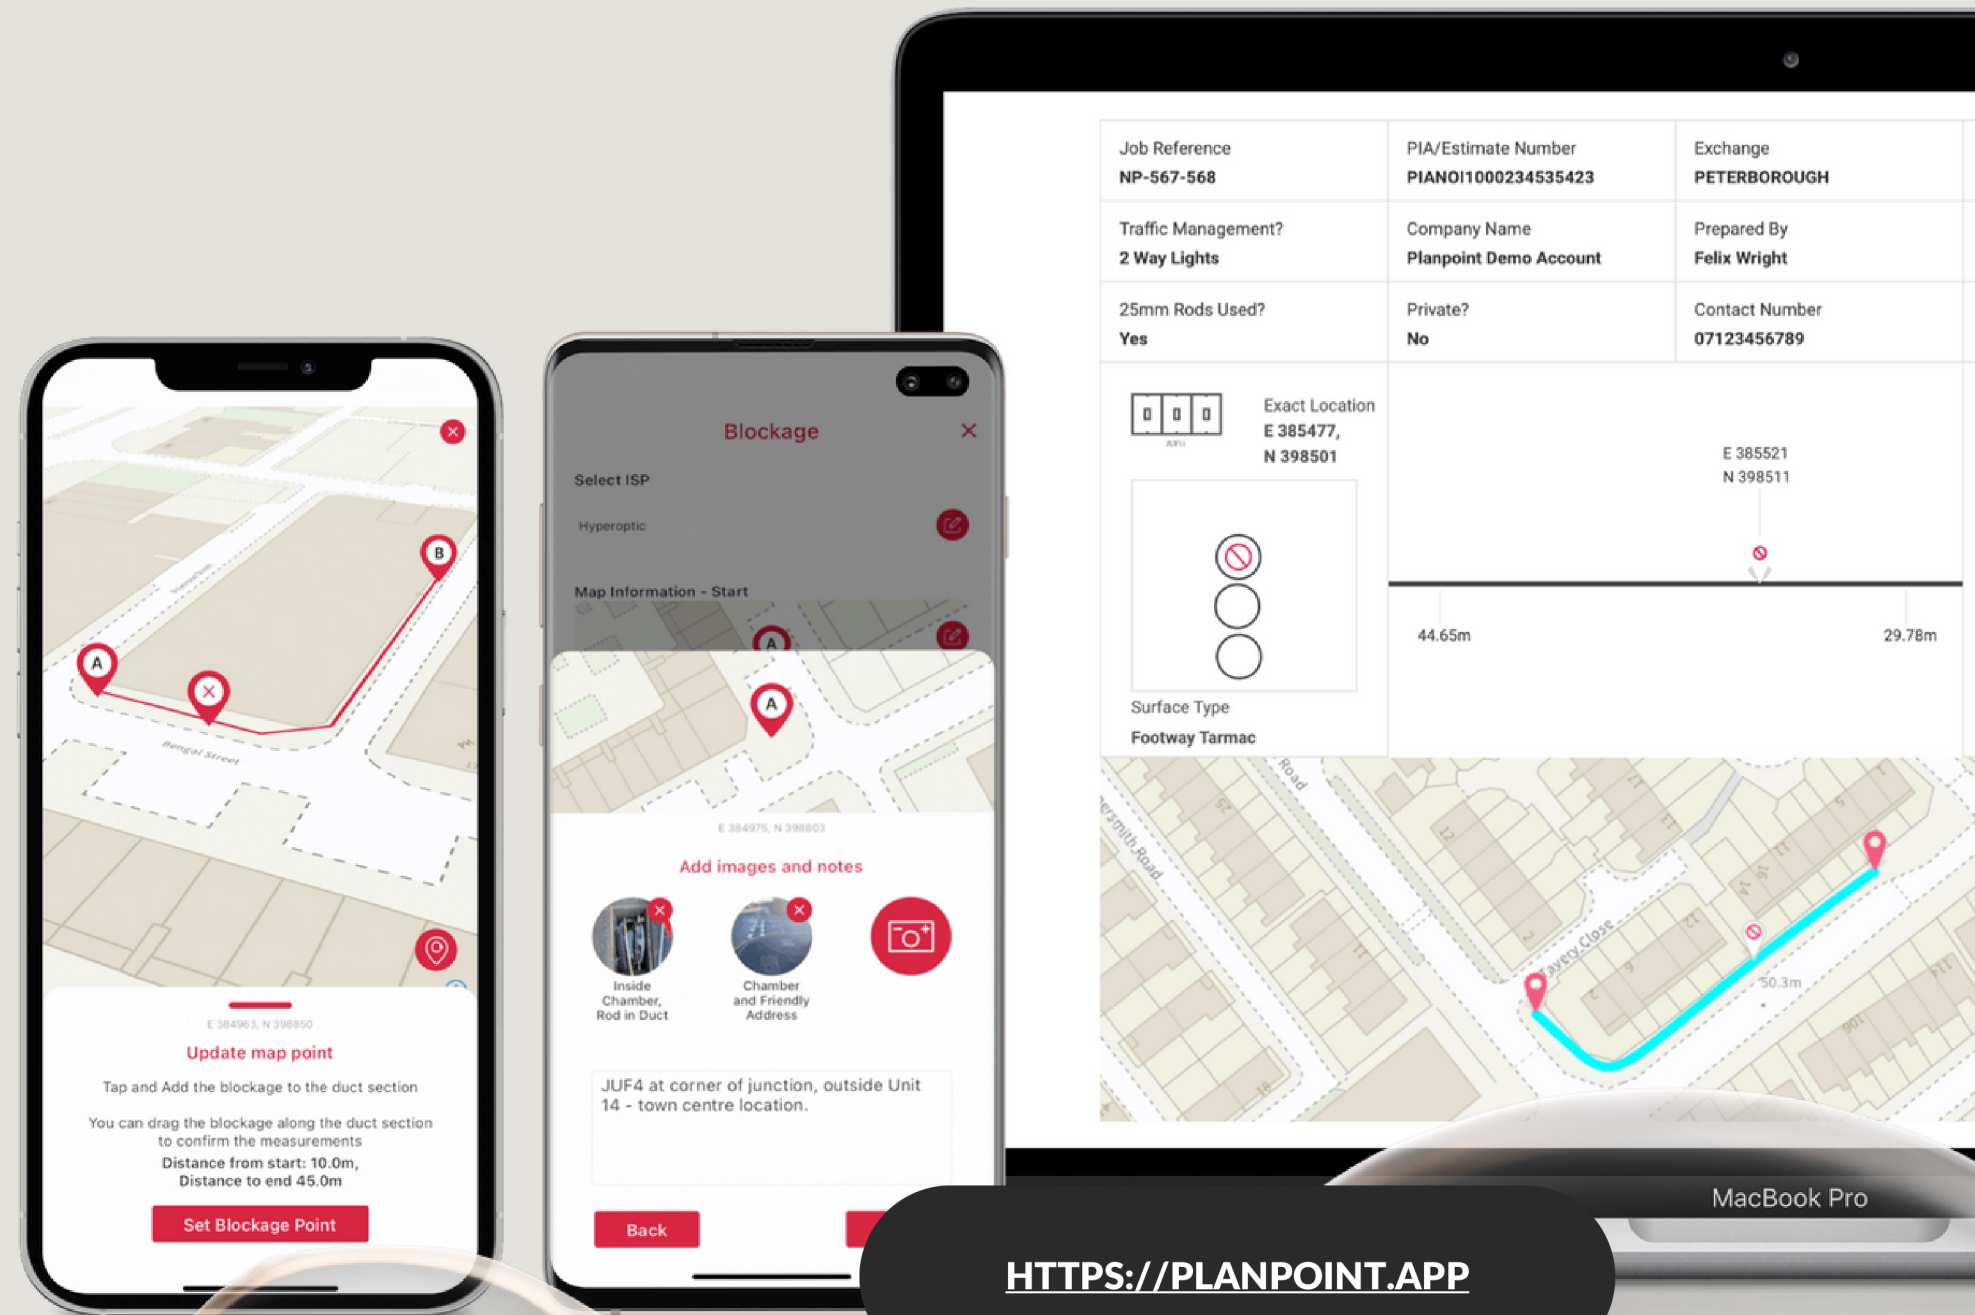

CASE STUDY: FROM PAPER CHAOS TO DIGITAL EFFICIENCY

Challenge: A fiber optics company drowning in paperwork and errors

Our Approach: Curated the perfect team, oversaw app and platform development

Result: 40% efficiency boost, 60% fewer errors, and one very happy client

[HTTPS://PLANPOINT.APP](https://planpoint.app)

CASE STUDY 2: FROM LOCAL DATABASE TO GLOBAL ACCESS

Challenge: A jewellery market leader trapped by a fragile local inventory system

Our Approach: Developed a secure, web-based stock management app tailored for the jewellery industry

Result: Global accessibility, enhanced security, and an 80% increase in inventory management efficiency

The screenshot displays the MOSMS web-based stock management app interface. On the left is a dark sidebar with navigation options: Dashboard, Products, Attributes, Contacts, and Users. The main content area is titled 'Products' and features a search bar, a user profile for 'Jackson Howell', and a 'Products Catalogue' section with 6 items. The items are displayed in a grid with their respective images, descriptions, prices, and status labels (On Appro, Sold, In Stock). A '+ Add new product' button is visible in the top right of the catalogue area. A URL [HTTPS://THELUXE.APP](https://theluxe.app) is overlaid on the bottom right of the interface.

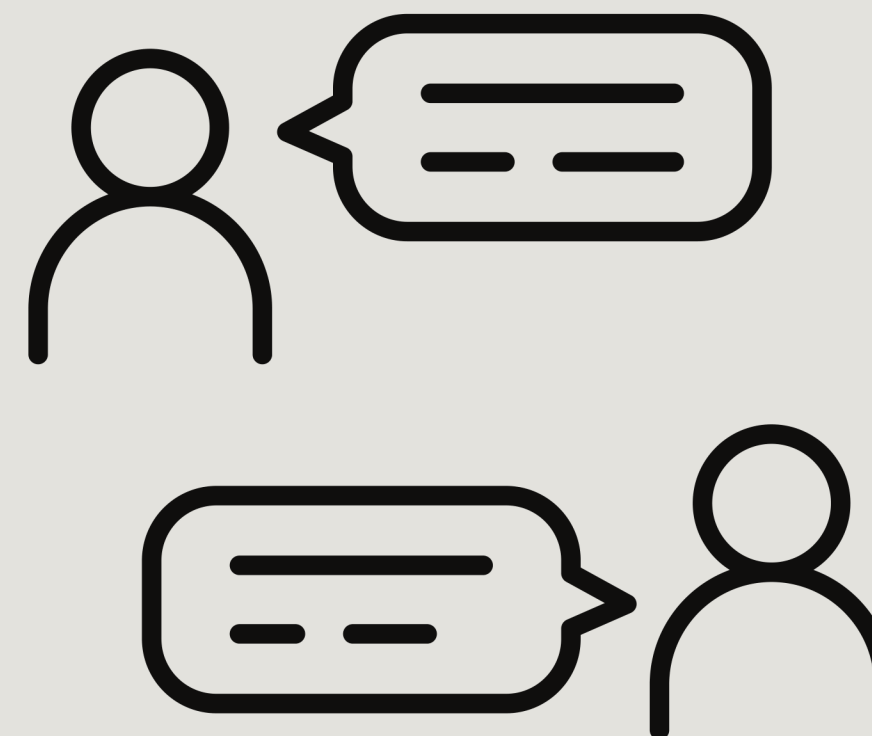

Product Name	Price	Status
Blue ring, cluster diamonds	£1,130	On Appro
Silver diamond ring 3 piece	£2,400.99	Sold
Red stone ring diamond edge	£585.50	In Stock
Multicolour broach with gold	£200	On Appro
Headband pseudo gold pearl	£200	Sold
Headpiece 34 diamond		In Stock
